SAIFUDDIN RUPAWALA

Odoo Technical Lead & Developer | Python & PostgreSQL | ERP Customization, Integrations & Reporting

Gandhinagar, Gujarat, India | +91 97143 97452 | saif.rupawala@gmail.com | linkedin.com/in/saifuddin-rupawala-504b1459

PROFESSIONAL SUMMARY

Odoo Technical Lead and Developer with 9+ years turning complex business requirements into production-grade Odoo Enterprise and Community systems — custom Python/PostgreSQL module development, a 7-version database migration (v9 to v16) for SETCO, Sudan, and a government-scale deployment covering 650,000+ personnel on the Afghan Personnel & Pay System. Delivered ERP implementations and onsite go-lives across India, the Middle East, the US, and Africa, and most recently led a technical team as Odoo Team Lead using Agile/Scrum practices — hiring, training, and shipping. Hands-on with Odoo 6.0–18.0, REST/SOAP APIs, CI/CD, and emerging AI/MCP integrations. Odoo 16 Certified. Immediate joiner.

TECHNICAL SKILLS

- **Core Development:** Python, Odoo ORM, XML, QWeb, SQL, Odoo JS, HTML, CSS
- **Odoo Platform:** Custom module development, workflow automation, compute & related fields, security & access rights, Odoo Studio, Odoo.sh, Odoo Enterprise & Community Edition
- **Database:** PostgreSQL — schema design, performance tuning, query optimization, troubleshooting
- **Reporting:** QWeb, PDF, Excel, Jasper report development, dashboards, data import & export
- **Integrations:** REST/SOAP API, JSON-RPC, OAuth 2.0, MCP (Model Context Protocol), Shopify, Magento, WhatsApp, Tulip (MES), payment gateways
- **Functional Modules:** Sales, Purchase, Accounting, MRP, POS, Quality Control, HR & Payroll, Inventory, CRM, Website
- **Version Experience:** Odoo 6.0 – 18.0, including code & database migrations
- **Migration Planning:** Migration strategy & planning, OpenUpgrade & ETL migration tooling, custom migration scripting for major version jumps beyond official Odoo upgrade support
- **DevOps & Infrastructure:** Git, GitHub, GitHub Actions, Docker, CI/CD pipelines, AWS (EC2, RDS), Nginx, Linux (Ubuntu) server installation & administration
- **Methodologies:** Agile/Scrum, Sprint Planning, Jira
- **Other:** Multi-company setup, team leadership & mentoring

PROFESSIONAL EXPERIENCE

Odoo Team Lead — *Techsprint Global Pvt. Ltd., Vadodara, India* | **Mar 2024 – Sep 2026**

- Led a technical team delivering custom Odoo ERP modules across 7 functional areas — Sales, Purchase, Accounting, MRP, POS, Quality Control, and HR & Payroll — taking each project from requirements through go-live.
- Built a technical team from the ground up by recruiting and hiring developers through university campus interviews, then designed a structured Odoo training plan that brought new hires to development-ready speed.
- Owned end-to-end delivery of Odoo implementations — requirements, technical design, development, testing, deployment, and support — resolving performance and data issues to keep production systems stable.
- Delivered a high volume of smaller Odoo projects end-to-end, from requirements to go-live, alongside the team's larger implementations, sustaining delivery throughput across concurrent client engagements.
- Standardized production releases for Odoo environments by building CI/CD pipelines and Docker-based deployments on AWS (Ubuntu Linux), with Git/GitHub for version control.

Software Developer — *Entrivis Tech Pvt. Ltd., Vadodara, India* | **Nov 2021 – Mar 2024**

- Developed and customized Odoo modules and third-party integrations for client ERP projects, including a retail bakery & coffee system in Kuwait built on Odoo v16.

Software Developer — *Bista Solutions Inc, Vadodara, India* | **Jun 2021 – Nov 2021**

- Contributed to Odoo implementation and client support engagements as part of the development team.

Software Developer — *Serpent Consulting Services Pvt. Ltd., Gandhinagar, India* | **Oct 2015 – Jun 2021**

- Delivered Odoo implementations and custom modules across versions 6.0 to 14.0 for clients in 5 countries, executing code and database migrations to keep systems current and stable.
- Built payroll, invoicing, and reporting systems for clients in Singapore, Sudan, Afghanistan, Nigeria, and the US, each tailored to local business requirements.
- Provided onsite go-live support and end-user training in Nigeria (2018) and Afghanistan (2019), ensuring smooth transitions for client teams after deployment.

KEY PROJECTS

- **In-House Odoo MCP Server:** Worked on an in-house MCP (Model Context Protocol) server connecting Odoo with AI/LLM tooling, enabling AI-driven access to ERP data and workflows.
- **SETCO, Sudan (Odoo v9 to v16 Migration):** Planned and executed a direct database migration from Odoo v9 to v16 using custom scripts — with no official Odoo migration support for that version jump — and took the system live.
- **MES Integration – Cake Manufacturing (USA):** Automated MRP and shop-floor operations for a cake-making line, integrated with Tulip.
- **FMCG Bottling Plant (India):** Configured Odoo.sh and built a WhatsApp order-alert integration for a soft-drink bottling client.
- **Techlong (India, Gujarat):** Odoo rollout for Sales, Purchase, Inventory, Accounting, HR & Payroll, MRP, and finance reports across 3 companies in India, Dubai, and China.
- **OC2Me (Dubai):** Built Sales, Purchase, Inventory, and Accounting with a public portal for customer-created orders, meeting UAE ISO requirements.
- **Vasaindica (Dubai & Delhi):** Implemented Sales, POS, and consignment orders with WhatsApp, Shopify, eCommerce website, and PhonePe payment gateway integration.
- **Bank Reconciliation Software (Dubai & India):** Built a standalone, offline Python application (Windows/Mac/Linux) that auto-reads PDF, image, Excel, and CSV bank statements and links with Odoo.
- **Afghan Personnel & Pay System (Afghanistan):** Built a government ERP to curb payroll corruption — covering 650,000+ personnel and 300,000+ users, with audit reports to catch fraudulent “ghost” records.
- **Pittsburgh Spray (USA):** Implemented Sales, Purchase, Inventory, Accounting, and CRM; integrated Shopify and shipping partners (UPS, DHL, Shippo).
- **Zafco (UAE):** Supported 15+ companies on one Odoo database; added barcoding and integrations with Google Drive, Shopify, and Power BI.
- **Elite Horizon (Dubai):** Implemented Sales, CRM, Payroll, and Accounting for 3 companies, with multi-company intercompany transactions.

EDUCATION

- Bachelor of Computer Application (BCA), A+ Grade — Smt. R.C. Patel, Gandhinagar (Hemchandracharya North Gujarat University, Patan)

CERTIFICATIONS

- Odoo 16 Technical Certification
